

Taxi!

My daughter enjoyed attending the Taylor Swift concert at the Saddledome. I cannot believe that in a city as prosperous as ours, she was unable to get a taxi ride home. This is an outrage when you consider the volume of tourists and the massive amount of alcohol consumed in our city during Stampede Week.

This is a constant disappointment, having stood outside myself after a Christmas party in -20 C weather for a cab that never showed up. Shame on you, Calgary! Why can't we have a system like the black cabs in London? Who cares about the ring road when the city doesn't issue enough taxi permits to properly address this basic issue?
